

HFPALM

OCTOBER 2023

# Welcome to HF PALM

HF PALM is a company specializing in farm acquisitions within the Agadir region. Presently, we are keen on expanding our operations into the German market to further our ventures in exporting fruits and vegetables.

HF PALM

ASA Trading is already a prominent player in multiple European markets, including Spain, France, and the UK. In a recent strategic move, we established a local entity, HF PALM, to serve as the primary business contact in Morocco, specifically in the vibrant city of Casablanca.

HF PALM is a subsidiary of ASA Trading, a proud member of the ASA Group (<https://www.asa.ba/>), boasting three decades of extensive industry expertise. Our experience spans various sectors, including trading of wheat and corn, industry, banking, health, insurance, and protection clothing.

**HFPALM**

HF PALM possesses the capability to supply 400 tons of produce monthly to the German market. The range of produce is seasonal and encompasses oranges, tomatoes, lemons, peppers, and melons. Pricing is subject to weekly fluctuations or can be established through contractual agreements for each season.

**HFPALM**

HF PALM will collaborate with various suppliers, such as SKM, Delassus, or similar, based on the specific requirements of customers, ensuring the delivery of high-quality products to Germany via trucks or sea transport. These suppliers hold diverse certifications including ONSSA certification (Moroccan), Global Gap, BRC Food certificate, or Tesco.

Notably, we already distribute products across Europe (Barcelona, Perpignan, Rungis, Rotterdam, and London) and extend their services to Russia and Middle Eastern countries.

# Watermelon

## Description

Watermelon is a fleshy and juicy fruit, having a spherical or oblong shape. Its thick, smooth skin is generally green, spotted with dark green stripes, and contains juicy flesh, red or pale yellow depending on the variety. Watermelon is loved for its sweet, refreshing flavour, as well as its high water content.
